❑ About us:

Sustainability is the ability to be maintained at a certain rate or level.

Environmental sustainability is the avoidance of the depletion of natural resources in order to maintain an ecological balance.

Volunteering is a voluntary act of an individual or group freely giving time and labour for community service.

Tourism is the activities of people traveling to and staying in places outside their usual environment for leisure, business, or other purposes for not more than one consecutive year.

In order to combine these 3 concepts, “.....” website would like to give travellers the opportunity to have fun travelling and doing something good for the environment at the same time.

You can travel and do green activities (ex: Cleaning beaches from plastic, planting trees, using green transportation, etc...) to help accomplish a greener and more sustainable future.

Once the traveller is a part of the volunteerism movement, he/she earns points for every accomplishment that can be rewarded to pay for local activities (like a kayak, dinner..).

Travellers can also invite friends to join the initiatives and earn more points when they participate for volunteering too.

❑ List of Activities with their points:

- Cleaning up a beach/a neighborhood/a park... (....Points).
- Using public transportation, sharing cars (....Points).
- Go cycling (....Points).
- Visiting local tourism sites (.....Points).

❑ Types of users:

- A guide: to be a guide is to be responsible and a part of this movement by helping us to add more green activities that may help tourists having fun, doing volunteerism, and accomplish sustainability.
- A volunteer: to be a volunteer is to take part in the available green activities near you while having fun and help to maintain an ecological balance and sustainability.

❑ Invite friends benefits:

HELP US GROW OUR FAMILY OF RESPONSIBLE VOLUNTEERING TOURISTS!

Invite your friends to expand our community and get extra points for every new volunteer responds to your invitation.
